**Subject:** FW: Primer development update - will NOW be Noon August 24th through noon August 31st

Regarding GWPC September meeting, two big events planned for release but still in works: IOGCC/GWPC seis report (we participated); new aquifer exemption policy document release by Peter G. (technically we weren't lead but drove anyway). Draft agenda here- [http://www.gwpc.org/sites/default/files/events/~%24eliminary\\_0820.pdf](http://www.gwpc.org/sites/default/files/events/~%24eliminary_0820.pdf)

**Subject:** Primer development update - Aug 21-28 - Last review

Dear Induced Seismicity Workgroup members and Technical Advisors:

On behalf of the Editorial Committee, I want to again thank you for your participation in this important initiative.

The Editorial Committee and the Independent Technical Review Panel have been working diligently with our technical editor to bring you Revision 5.0. **This will be ready for you to read from August 21-28<sup>th</sup>**. We apologize for the very short window of time, but the schedule is very tight for the September 28<sup>th</sup> release.

A HEADS-UP:

The primer document has been re-organized into a more readable format and the bulk of the technical detail has been excerpted into the appendices. To give you an idea of the organization, attached you will see the revised table of contents.

Again, the time that you will be given to review the document will be Aug, 21-28 and this will likely be the final opportunity for you to review the document prior to its release.

Ben Grunewald  
ISWG Coordinator
